

Request for Consultancy Services from the Australian Youth Mentoring Network

Community Consultation

The AYMN consultants have run a number of community consultation sessions across the country.

They have varied in their format but have included the likes of defining who the consultation group should be, facilitating community focus groups, providing information workshops on mentoring, writing outcome reports and delivering presentations to boards.

Please provide a brief outline of what you would the AYMN to do as part of the community consultation process.

When would you like this project to begin?

When is this project due for completion?

What is your expected budget for this project?
